More options. Quality at every level.
The removable portfolio with the right teeth for every indication.

- **Master Class:** Phonares® II and PhysioStar® - The ultimate in function and esthetics
- **Premium:** BlueLine®, TCR® and SR Vivodent® PE - High performance and esthetics
- **Mid-Line:** SR Vivodent® - The perfect blend of value and esthetics
- **Entry Level:** Ivostar® Gnathostar® - Simple and efficient

All Ivoclar Vivadent and Candulor teeth are backed by our 100% Satisfaction Guarantee!

Contact your Ivoclar Vivadent representative to discuss which options are best for you.
Beauty Doesn’t Have to Come at a Price

VITA MFT® – masterful esthetics with a simple set-up

VITA MFT value-priced premium performance denture teeth offer the ultimate in functionality. The compact mould range is perfect for reducing inventory and improving efficiency without sacrificing esthetics or performance. VITA MFT teeth are offered in 17 moulds and 23 combination VITA 3D-MASTER®/classical and bleached shades – and their intuitive design offers fast set up and enhanced productivity.
# Buyers’ Guide

The following is a listing of product/service categories and the companies which provide them. Listing of company, product or service does not imply endorsement by the Denturist Association of Canada.

## ACRYLICS
- CANDULOR AG
  - Central Dental Ltd.
  - DENTSPLY Canada Ltd.

3.0mm GoDirect® Implants
1-Piece Simplicity, 2-Piece Versatility

GoDirect Advantages vs Zest’s LODI

Implant Design Options
• Rounded apex for 28% greater surface area
• Pointed apex for insertion with shorter drilling

1-Piece Implant Design
Simplifies insertion with 87% greater strength (3.0mmD GoDirect vs 2.9mmD LODI)

Implant Design Benefits
• Micro-threads for reduced stress at crest
• Longer grooves for self-tapping in dense bone

Prosthetic Platform
Compatible with Zest LOCATOR® as well as GPS® Internal and External Cap Attachment (see GPS advantages below)

Prosthetic Versatility
1-Piece implant with internal threads accepts ball, multi-unit, custom-cast & GPS abutments

Reduced Profile Height
GoDirect 1-Piece design is up to 1.7mm lower providing more room for denture teeth

GoDirect Offers More Implant For Your Money

28% greater surface area with GoDirect 3.0mm implants

64% greater surface area with GoDirect 3.7mm implants

Reality Check: Zest Customers
Save $1751 by purchasing fewer implants

GPS® Internal Attachment eliminates the unhygienic gap on rotation and initially maintains 100% of its retention at 10°

Zest’s LOCATOR® Dual Retention creates a gap on rotation and initially loses 27% of its retention at 10°

All-in-1 Packaging: $175 includes implant, transfer, comfort cap, metal housing, black processing male, block-out spacer and GPS Internal cap attachment which provides vertical and rotational stress-breaking.

Zest’s Ad for its LOCATOR® Overdenture Implant (“LODI”) Claims “No More Compromise” but should just say “More Compromise.”

Zest’s 2.9mmD LOCATOR® Overdenture Implant (“LODI”)

GoDirect Advantage vs Zest’s LODI

Surface Areas Below Bone Level1

GoDirect vs Zest LODI

1-Piece Implant Design
Simplifies insertion with 87% greater strength (3.0mmD GoDirect vs 2.9mmD LODI)

Zest Customers
Save $175 by purchasing fewer implants

The Denturist Association of Ontario is pleased to announce

Denturist Awareness Month

The Denturist Association of Ontario (DAO) representatives were at Queen's Park, October 2013, to witness the official statement being read in the legislature declaring October as:

Denturist Awareness Month

The DAO worked diligently on this huge step forward on behalf of its members for years and was determined to see it to completion.

The DAO has several poster options available for ordering. A sample of the diverse selections can be viewed on the DAO website.

To Order:
Visit The DAO website at https://denturistassociation.ca/page/fact-sheet-and-poster-order-forms or for more information, contact The DAO Order Desk at orders@denturistassociation.ca

Titanium Frameworks
from Aurum Ceramic®/Classic!

Lightweight – Biocompatible – Corrosion Resistant

Capture metal-sensitive patients!
• Lightweight (over 35% lighter than chrome castings).
• Low thermal conductivity. No metallic taste.
• Precision fit. Clasps can be placed in deeper undercuts (more esthetic restoration).

Complete Access to our Innovative Solutions
• Insightful case planning and consulting.
• Full colour plots for you and your doctors using our exclusive Computerized Cast Partial Design System (Call us for a FREE TRIAL!)
• Every framework x-rayed for imperfections as part of our extensive quality control systems (actual x-ray sent back along with case).

Platinum-level Service on Every Case
• Fast turnaround in laboratory (guaranteed!)
• FREE prepaid courier pick-up and delivery.
• All metal frameworks guaranteed for a full five years against defects in materials or craftsmanship.

Let us help you expand your cast partial business with Titanium Frameworks.
Go to www.aurumgroup.com/ca-titanium-frameworks for full details.

More than a fixed rehabilitation.
A reason to smile.

With Straumann® Pro Arch patients benefit from a high-end solution that brings a new quality of life, and a beautiful smile:

**Straumann Pro Arch:**
- Reduces complexity by addressing the individual anatomical situation and leveraging the Roxolid® material
- Delivers faster healing times* thanks to the SLActive® surface
- Provides options for immediate temporization, when good primary stability is achieved
- Boosts efficiency with new prosthetic portfolio

Visit straumannproarch.com for more information

BETTER PRECISION. FASTER PRODUCTION. HIGHER PROFITABILITY.

PALA DIGITAL DENTURES

The Pala Digital Denture solution is a perfect way for you to expand your services and increase your bottom line.

• The only solution with CAD/CAM designed and manufactured teeth, for extremely accurate dentures.
• Faster processing time (10 days or less*) enables higher throughput and profit margins for you and your customers.
• Precision fit and comfort means more satisfied customers—and more business for your lab.

*Bten-day turn around time will vary due to shipping and depending on laboratory scanning time.

20% Benzocaine for fast, temporary relief of occasional minor irritation and pain associated with:

- Minor dental procedures
- Minor injury of the mouth and gums
- Minor irritation of the mouth and gums caused by dentures or orthodontic appliances
- Sore mouth and throat
- Canker sores

**EFFECTIVE**
- Trusted by dental professionals for over 40 years
- Eliminates pain and discomfort

**FAST-ACTING**
- Relief within 30 seconds

**SAFE**
- Virtually no systemic absorption
- Available over the counter

HurriPAK™ Periodontal Anesthetic Kit is a great alternative to local injection prior to root planing and scaling or full mouth debridement. Whether scaling an entire quadrant or an isolated area, HurriPAK allows dispensing only the amount of liquid needed, so no product is wasted. Plastic irrigation tips enable effective sub-gingival application of HurriCaine® Topical Anesthetic Liquid and are gentle to soft tissue.

- Needle-free periodontal anaesthesia
- Works within 30 seconds
- No prefilled carpules - you determine how much you need
- Pleasant tasting - Wild Cherry and Piña Colada flavours

**Each HurriPAK Starter Kit Contains:**
- 2 bottles of HurriCaine Topical Anesthetic Liquid - Wild Cherry and Piña Colada flavours
- 12 disposable irrigation syringes
- 12 disposable periodontal irrigation tips
- 2 HurriCaine Luer-Lock Dispensing Caps

HurriSeal® Dentin Desensitizer is a simple, one-step, chairside procedure for treating and preventing dentinal hypersensitivity. HurriSeal’s unique HEMA, Sodium Fluoride and Benzalkonium Chloride formula acts in seconds to seal dentinal tubules.

**TREAT SENSITIVITY**
Treat cervical sensitivity and provide immediate relief lasting up to 9 months.

**PREVENT SENSITIVITY**
Prevent post-procedure discomfort associated with restorative procedures. Just a quick application after etching is all you need to prevent sensitivity for the lifetime of the restoration.

**EFFECTIVE**
HurriSeal offers chairside relief with only a quick 30-second application.

**EASY TO USE**
No mixing or light-curing. Just a quick and simple chairside application with instant results.

**SOFT TISSUE FRIENDLY**
Unlike products containing glutaraldehyde, HurriSeal is gentle to soft tissue and does not cause gingival irritation when used as directed.

HurriView® and HurriView II® will help you show patients where they have plaque build-up & help motivate them to improve their oral hygiene routines.

- HurriView highlights where improved oral hygiene is needed
- HurriView II highlights old plaque in blue and new plaque in reddish-pink
- Individually wrapped
- In-office evaluation or dispense for home use
- Available in boxes of 72
- No messy rinses or tablets!

To place an order, contact your preferred supplier or contact your Canadian Representative at 1-519-766-6343. www.beutlich.com

HurriCaine, HurriSeal, HurriView and HurriView II are registered trademarks of Beutlich Pharmaceuticals, LLC. HurriPAK and Snap -n- Go are trademarks of Beutlich Pharmaceuticals, LLC. CDA 748 0114
